Finally: A Pat For Bobby Baker

One of the newsmen for the U. S. Press Association has an interesting observation regarding the Washington news scene: the era just now ending.

The newsmen who do the back-tiring leg-work of touring the Washington newsbeats on capitol hill, the Pentagon, and the White House, let little emotionalism intrude into their stories as they file them for the wire services or their daily papers back home.

It may come as a surprise that newsmen look back with regret upon the departure of Bobby Baker from the White House family, and date the decline of popularity of Lyndon B. Johnson to that time — a statement that may need an explanation.

Many of us remember that Walter Jenkins and Bobby Baker were night and day companions of LBJ. They were his eyes and ears on the Hill and in maintaining contact with the real world beyond Washington's suburbs.

Bobby Baker knew more about what and why Congress was thinking as it was, and how it would vote, than perhaps any other man in recent times. He was Lyndon Johnson's contact with reality.

When he was removed from the President's side, he was supplanted by a crew of confidants who couldn't even get a free cup of coffee on Capitol Hill — McNamara, Bundy, Rusk and Walt Rostow. They were theoreticians and not practitioners of the arts of politics or the exercise of power.

It is common to cite just one example: when the USS Pueblo was seized in international waters, the first flash to the White House was received, according to all accounts, by Walt Rostow. And it is said that he debated, or at least waited, for more than an hour-and-a-half before waking the President to report the incident.

It is believed that if a poll could be taken of the Washington news corps, and the Congress, an overwhelming number would have preferred to have had Bobby Baker get that first Pueblo flash.

The feeling is that he'd have had his boss out of bed in one-and-a-half seconds, and that a terribly tragic and embarrassing affair might have been turned around; that Johnson would have been on the hot line, or on a line that got hot.

A lot of newsmen believe that except for Bobby Kennedy's unfulfilled vendetta against Bobby Baker, the history of the Johnson administration might have been vastly different and infinitely more satisfactory to the country.

Resolution: Nasty Fun

The New Year's Resolution game can be nasty fun — if you're inclined toward that sort of thing.

They're resolutions you'd make for somebody else by which a light can be focused on an unusual event or a facet of the person's character.

Don't depend on us for all the good ones. Make up some of your own. There are plenty of targets — Eldridge Cleaver, Castro, Averell Harriman, to name a few.

But try these first:

The Arabs — to leave Israeli planes alone

Baltimore Colts — to listen more carefully to Joe Namath

Cmdr. Lloyd Bucher — to make a map of the scuttle-plug

Burnham Takes On New Post

The position of superintendent-president of Grossmont College has been filled. Dr. Robert N. Burnham is expected to sign a four-year contract with college board trustees on Feb. 10.

Burnham, who is 48 years-old, indicated shortly after Harold G. Hughes announced his retirement before the Christmas holidays that he would accept the position if it were offered to him.

The post which pays $26,500 a year will change hands on July 1. Hughes retirement will not be effective until Sept. 1. During those months, Burnham will act as president-designate.

Hughes was the first man to fill the post at the junior college. He was appointed college president in 1965.

He was one of the prime movers in getting the junior college constructed and a district formed in 1961.

Both Burnham and Hughes are products of the Grossmont Union High School District. The two had been teachers prior moving into their college administrative posts.

Hughes had been on the Grossmont High School faculty in 1936. He served in the Navy during World War II and then returned to the same school where he became vice principal and business manager for the district.

Burnham had been a teacher and a counselor in the high school district before joining the college faculty as a counselor and instructor prior to becoming vice president.

The college serves some 6,000 students and is valued at $20 million.

Eleven more youths, ranging from the ages of 12 to 18 years-old have been issued citations for "Obstructing Public Sidewalks" in the 7800 block of Broadway, Lemon Grove.

The arrests were made near Winchell's Donut Shop at 7863 Broadway and Warren's Furniture which is adjacant to a parking lot between the two buildings.

The bulk of the arrests were made on Jan. 8. They spanned from 3:25 p.m. to an early evening time of 8:35 p.m.

The arrests followed another series that were made the day before when 13 juveniles were picked up on the same charges by sheriff's deputies.

One youth was issued a citation for having his legs extended out into the sidewalk area obstructing and partially blocking the sidewalk.

He was issued the misdemeanor citation at the Lemon Grove sub station located at 7859 Broadway at 3:25 p.m. on Jan. 8. In all cases, parents were requested to come and accept custody of the juveniles.

A 17-year-old boy was issued a like citation at 8:35 p.m. for sitting on a planter-edge with his feet extended out onto the sidewalk area.

At 3:30 p.m. on the same day, five girls and two boys, ranging from 12 to 14 years-of-age were cited for the same charge.

Guiding Hands Home Help Grows and Grows

The Home of Guiding Hands landscape aid project continues to grow as 79 more local families became subscribers to this newspaper to be able to participate in the project.

The 79 added families brings the family total for the project to 770.

Several weeks ago this publication was told by channel 8 Mel Knoepp about the need for landscape aid at the Home. Since then nearly 800 local families have responded to the call.

As each family subscribes, a portion of the subscription fee is set aside for the project. When the project ends, a cost analysis will be run—deducting that part which is sales and production costs—and the part not shareable as actual expenses will be turned over to the Home.

The Home of Guiding Hands is a mentally retarded facility in Lakeside, built with private funds. It is a non-profit organization dedicated to the care and treatment of those who are severely retarded.

April Elections Set For School Trustees

April 15 is election day for area school trustees. Filing period started this week and will continue until Feb. 20.

Candidates must live in the district they intend to serve and be a registered voter in the district. Applications are available at the district office and at the registrar of voters office at the county operation center on Kearney Mesa. There is no filing fee.

A new ruling, passed by the state legislature, prohibits trustees from serving on both high school and junior college boards. Three trustees at Grossmont whose terms expire in April, must decide which board they will run for. In effect, there will be six posts open. Three for college and three for high school. When the terms of the remaining two trustees expire, the same procedure will be used. Meanwhile, the two who do not stand for re-election, will continue to serve both boards.

At Grossmont, these positions will be filled: Robert P. Dryden, Rexford L. Hall, and Palmer Svalstad.

At Lemon Grove, these: Harry W. Buckner, Bert R. Cosby, and Thomas A. Higdon.

At La Mesa-Spring Valley: Rev. Arne Christianson, Peter C. Doyle, and Hardy G. Kuykendall, Jr.

At Jamul-Las Flores: Charles R. Baecht, Kenneth E. Davis, and Charles F. Jessup.

American Field Service Bond Drive Begins At Helix High

The annual American Field Service Bond Drive, sponsored by Helix High School's International Club, opened Jan. 14 at Helix High School. The drive was kicked off at an assembly honoring American Field Service students.

The money from the bonds will bring AFS students to Helix next year. Needed is $750 for each AFS student. Also, 10 per cent of the money will be put in a scholarship fund for Helix students who go abroad to study.

The assembly featured 14 Grossmont District AFS students, and one student from Morse High School. A flag procession and spoofs on each student's experiences as AFS'ers was highlighted at the assembly.

Mike Upson, Grossmont High ASB president, was on hand to challenge Helix to raise more money than Grossmont.

"Hopefully, the assembly stimulated students to buy and sell bonds," Rick Bissell, I-Club president said.

AFS students talked in classrooms, and generally mingled with Helix students.

Prizes will be awarded to the students who sell the most bonds. There will be competition between first period classes. Bonds will cost 25 cents each.

Last year the Helix student body raised $1,000, enough to bring one student to Helix.

Legislation Started On $188,000 Return To 'Impact' Schools

Two bills have been introduced to the Calif. State Legislature that would turn back $629,766 to Lemon Grove-Spring Valley-La Mesa schools.

The first bill, introduced by Clair W. Burgener (R-San Diego), would return $441,766 to local communities.

The second bill which is being introduced by Assemblyman Wadie P. Deddeh (D-Chula Vista) and Ken MacDonald (D-Ojai), would return $188,000 on local levels.

Burgener's bill would discontinue the practice of reducing state school support for school districts which receive Federal funds under the title of "impact aid."

The Deddeh-Mac Donald bill is a request to have nearly $15 million returned to federally impacted school districts throughout the state.

In this move, the La Mesa-Spring Valley School District would receive $60,000; Lemon Grove School District, $23,000 and Grossmont Jr. College, $9,800.

In the Burgener bill, also known as Senate Bill 1058, the La Mesa-Spring Valley School District stands to receive $284,098; Lemon Grove School District, $109,390 and Grossmont Jr. College, $48,278.

The Jamul-Las Flores Union School district would receive $2,639.

ccording to Deddeh, the state is currently withholding approximately 25 per cent of federal funds from state aid allocations to local districts serving the military bases.

CONFLICTING STATE LAWS

The bill will climinate conlicting laws so that local school districts will not be deprived of federal aid to the impacted school areas.

The bill is in reaction to a recent court decision in Virginia in which a school district, in that state sued the State of Virginia to prevent the withholding of state funds as an off-se against federal aid.

The court ruled that such withholding was illegal.

Senator Burgener had introduced a similar bill in 1968.

His current bill would allow each state to discontinue the practice of deducting funds received from the federal government.

The U. S. Congress had adopted legislation in 1968 which in effect would eliminate entirely all P. L. 874 monies for each state which reduced their state support because of these impact funds.

Ducks, Cats Don't Mix

A duck's life is not what it used to be!

As a matter of fact, "Come Here", an eight pounder, who lived at the home of Mr. and Mrs. William Angius, 10318 Loma Rancho dr., Spring Valley is now making his point.

It seems that "Come Here" had a problem with cats according to Mrs. Angius.

He was getting plenty to eat, but just could not face the cats. A steady diet of pellets, lettuce and bread was not enough for this one-year-old.

Mrs. Angius said that anyone seeing the duck is asked to call her at 469-0902.

She pointed out that this is the first time that they have attempted o raise a duck. She did say hat they have a drake that is living on the property and is content.

Damage Slight In 2 3/4" Rain

A street-flooding storm that produced nearly two and three-quarters inches of rain here, kept the County Road Street Department busy during its 24 hour downfall.

While flooding plagued many homeowners, no serious damage was reported here.

W. H. Buckles, of the local office of the County Road Department said that local roads were in pretty good shape due to work completed on them following the severe storm last year. "We diverted all of our crews to cleaning roadsides where flooding appeared probable and sent crews to uncork storm drains and ditches, but in all, it was less of a problem than we thought it would be."

The storm, intermittently heavy to misty, left an official 2.73 inches of water although it was reported to be much heavier on the nearby mountaintops.

The total for the rain year stands now at 4.80 inches. This is far short of the 7.05 total for the same period last year.

The rain year commenced July 1. The rain-measuring day ends at 4 p.m. The total listed here is for a period ending at noon Wednesday.

FBI Arrests S.V. Man On Platinum Sale

Frank E. Baine, 42, a public relations man, of 4096 Redfield dr., Spring Valley, was one of three men arrested here Tuesday by the Federal Bureau of Investigations in connection with a $135,000 platinum swindle.

The FBI sought complaints on Baine, and two others from Bakersfield.

The FBI said the three were arrested following a nationwide investigation into a platinum swindle operation with negotiations taking place in San Diego.

The other two men are J. H. Bridges, 49, a cattle nutritionist, and Carl Youngblood, 50, a construction man.

Indictments were returned in mid-December on 12 others in similar, but not related, alleged swindles.

Eight victims are said to have lost about $537,000 in transaction leading up to the Dec. indictments, it was said.

This Sunday

Always and Everywhere

Let no one imagine that it is a strained and unnatural thing for one to pray. The contrary is much closer to the fact. It is far more unnatural for one not to pray. Prayer is one of the most natural of human instincts. Prayer is man's response to the divine will.

The answers are provided by Sumio Oto, El Cajon Social Security District Manager.

Q. I receive a monthly Social Security benefit check. I notified the post office of a change in my address. Do I have to notify the Social Security Administration also?

A. No. If you have itemized bills from your doctor (paid or unpaid), you can send them in with your Request for Medicare Payment. If you need help, your local social security office will be glad to assist you.

Dear Editor:

On behalf of the Social Security Administration, I wish to express my thanks and appreciation for your valuable assistance in helping us explain the Social Security Program to the public during the past year.

Since our new El Cajon office opened, there has been a vital need to inform the public in our service area of the existence of this office and of the important changes in Social Security and Medicare.

It was most important that our people be made aware of their rights to benefits under these changes.

Your excellent coverage of releases and "Questions and Answer" columns, making the public aware of the foregoing, has brought about results which have been most rewarding.

As a consequence of this publicity, many more people established their eligibility for benefits under Social Security and Medicare than would have, otherwise.

Again, I wish to express my appreciation for your outstanding public service to both the Social Security Administration and to the citizens of our community.

I sincerely trust that our pleasant relationship with you and your staff will continue in the future.

Sincerely yours,
Sumio Oto
District Manager

Learn Spanish the Easy Way

Hardison's Telespanish

by James Hardison

Is it true that the Spanish spoken in the Americas is sometimes referred to as the Cotes Spanish? Is there any difference between Cortes Spanish and Castillian Spanish and which is the preferred language?

Cortes was the first among the Spanish "conquistadores" (conquerors) to reach the central part of the mainland which is now known as Mexico. Because he and his companions brought the language with them in 1519 and encouraged it to be used among the conquered native population it became known as Cortes Spanish.

Spaniards who later came to live in the new world brought the basic fundamentals of the language with them. But the environment, the influence of the Indian languages, and other factors played an important part in changing the pronunciation of words.

Castillian Spanish originated in a northern section of Spain called "Castillo." The area has remained isolated for many hundreds of years, and as a result, the Castillian Spanish has changed very little during that time.

A similar comparison could be made between the Oxford English and the English spoken in the Americas today. The Oxford English, like the Castillian Spanish, has been relatively isolated and not subject to change. The Cortes Spanish, like the English of the Americas, has been altered in accent and usage by change in environment and the variety of people who speak the language. Both languages, the Cortes and the Castillian, are acceptable in their places of origin.

Some practice phrases are listed below that would be acceptable by either school. See how quickly you can learn them with the aid of the automatic recording that you may hear when you dial 276-2762 on your telephone.

IMPORTANT PHRASES
Say "Cortes vino a Mexico." (kohr-TEHS VEE-noh ah MEH-hee-koh)
for "Cortes came to Mexico."
Say "Introdujo el idioma." (een-tro-de-HOH ehl ee-dee-OH-mah)

USEFUL PHRASES

for "How did he come?"
Say "El vino en naves." (ehl VEE-noh ehn NAH-vehs)
for "He came in boats."

OTHER PHRASES
Say "Que traia?" (keh trah-EE-ah)

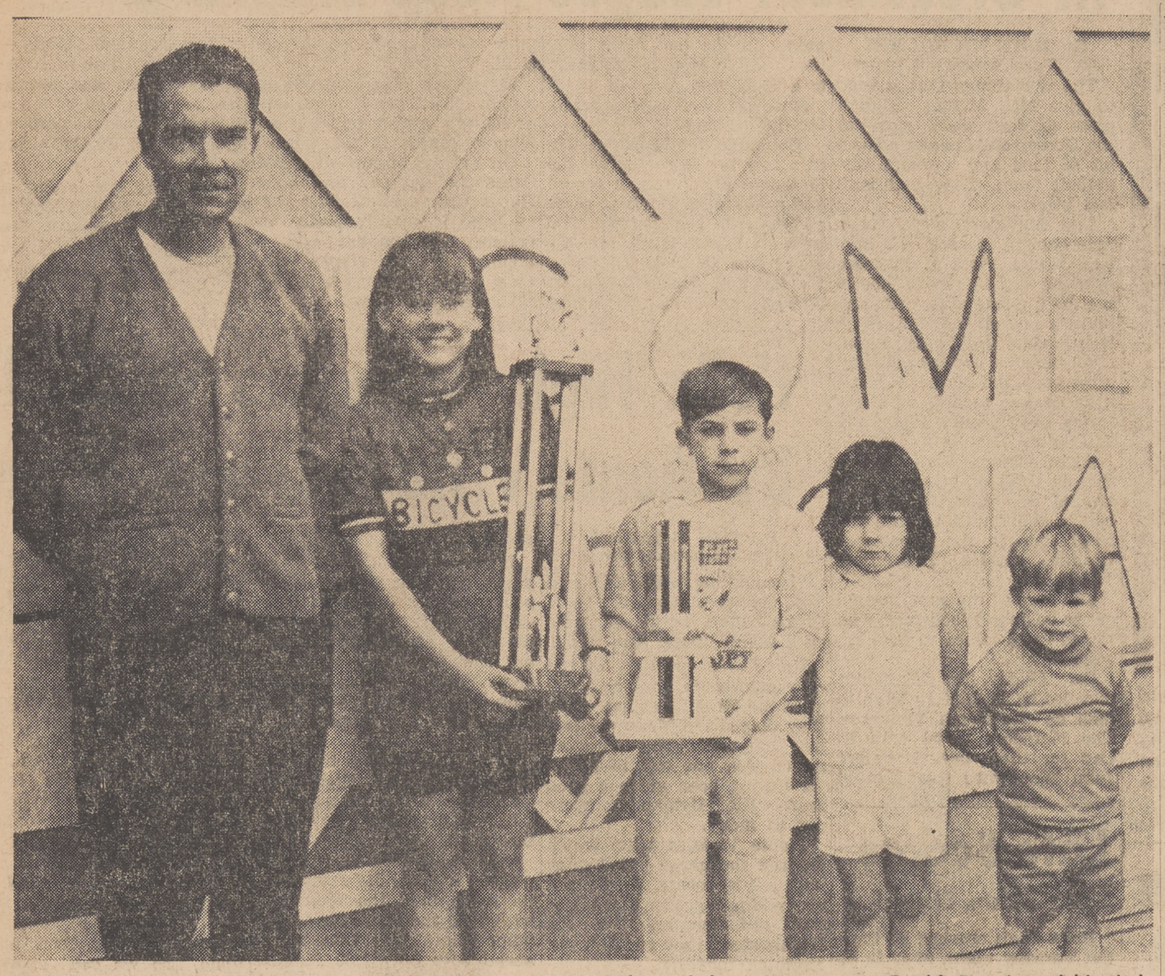
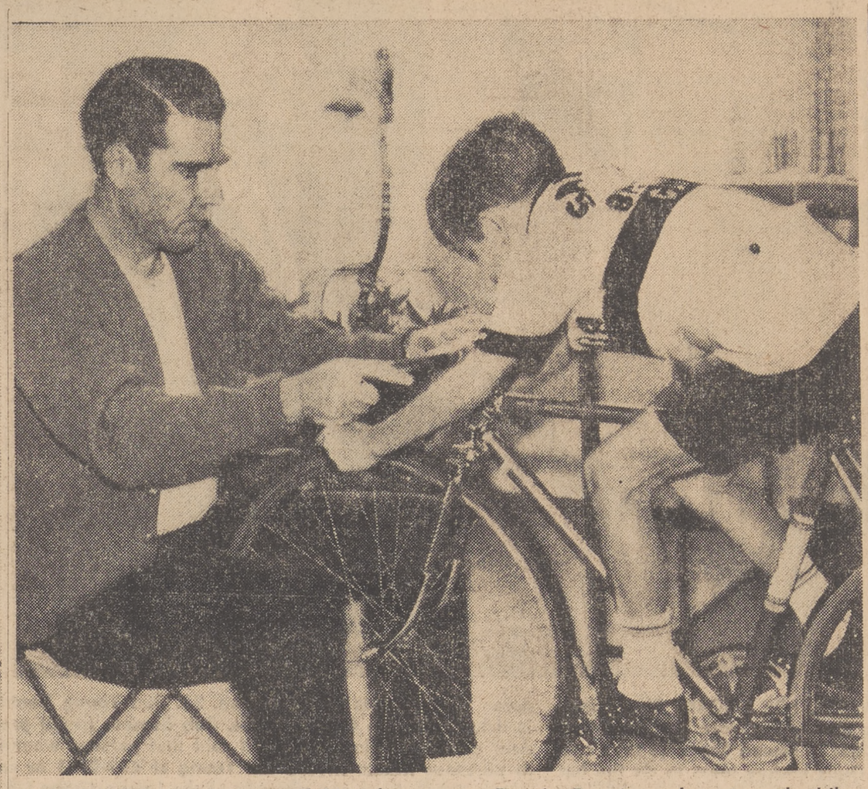
Spring Valley Youth Wins National Bike Race In Mexico



RACERS: The family of Robert L. Bergen is not an average family. The children and their dad all race on bicycles, both in U.S. competition and in Mexico. Shown from left to right is Robert the father of Darcy, champion Dennis, Darla, and the youngest entry David. Dennis and his dad recently returned from Mexico where Dennis won the International race for his age division.



WORK OUT: Robert L. Bergen (left) is shown as he stabilizes the bicycle used for practice in their Spring Valley home for his son Dennis. Dennis works out on the bike for at least one hour each day in the home and another hour riding on the street.

By JACK POLLARD
News Editor

The family of Robert L. Bergen of 10050 Cristobal dr., Spring Valley is more than just an "average every-day American family". In fact, the Bergen's have seven-year-old international champion living under their roof.

He is Dennis Bergen, a second grade student at the Highlands Elementary School in Spring Valley. He won first place in the 1,400 meter National Cycling Championships held Jan. 5 in Minatitlan, Mexico.

The youngster streaked across the rain slicked course in two minutes-fifty seconds to win first place. The title of National champ was not confired upon him because he does not hold Mexican citizenship papers.

His father, Robert, a San Diego attorney, along with another seven-year-old, Ricardo Valenquela of San Ysidro and Dennis made the week-long trip to the national race.

Minatitlan, located in the state of Veracruz, provided the trio with a reception at the airport when they arrived for the races.

ONLY AMERICAN IN RACE

Young Dennis, the only American by birth, to be invited to the race, qualified for the finals, in the opening heat of the day, on Jan. 4.

Ricardo qualified in the second heat on the same day, in the rain.

According to Robert, the two boys were slowed down by the rain in both the qualifications and in the championship race. **Dennis had received a special invitation to the national race which saw the streets crowded with some 10,000 persons and soldiers standing along the race route.**

He received the invitation after trials had been held in Tijuana, Mexico for five consecutive Sundays starting Nov. 24.

Dennis qualified for the nations as second place winner of the trials. Ricardo won first place honors in the Nov. races.

TABLES TURN AROUND

The tables were turned around as the two finished in the Minatitlan race. Dennis winner, was just ahead his companion traveler Ricardo.

Weighing in at 48 pounds, Dennis practiced riding his bike for two hours daily during the month of December.

He along with the help of his father, would work out on special equipment in their home. Rollers were used for the back wheels of the bike while his father would hold the front wheel in place.

Dennis would warm up for 15 minutes and then take off as if sprinting in a race. The quick spurt would last for about 30 seconds and then he would drop back down to an easy speed.

He would keep repeating the process for about one hour. Another hour was spent on the street road riding each day.

WALKS OVER COURSE

When the three arrived in the small Mexican town, they walked ove the race course, noting special sections that they would have to be concerned with during the race.

The headmaster of the two boys, pointed out different places that each boy should make his move for first place honors.

When they returned to the hotel, planning sessions were held.

Bergen said, "The boys race just as professional as world champions would race. We went over the course, studied maps of it, and planned the race.

"It paid off as they came in side-by-side. They worked hard for the honors."

Ricardo was given the title as National Champion for his division even though he came in second. A holder of the title must be a Mexican citizen by birth.

Dennis is not the only member of the Bergen family that has the bike riding spirit. His father started racing in 1936. He won his first race in 1940.

He qualified for the U. S. Olympic team in 1948 when he came in second at the time trials. He did not compete in the Olympics because of his college studies.

Just recently, he picked off first place in the 1,000 meter Far Western Championships held in Los Angeles. Americans from the mid-west to the Pacific Ocean were competing for the crown.

Another racer in the family is Darcy, who is 11-years-old. She is a fifth-grader at the Highlands Elementary School. She started racing when she was five.

During 1968, she won four races. Three of her first places came in Mexico. She finished third in the United States Championships held in L.A. during this past year.

The latest entry into the racing game at the Bergen home is David. This two-year-old tyke finished fourth in his first time out in the two wheeler division, with training wheels, in Ensenada.

FAMILY WINS IN BIG WAY

It was at Revolution Park in Ensenada that the Bergens made their presence known. David came in fourth, while Darcy won a first place gold medal in junior division competition.

Darla, a five-year-old, also picked up a first place in the trycycle division.

Dennis took top honors in the midget division while his father was out taking the gold medal for a win in the 15,000 meter race.

The cycling family holds membership in the San Diego Bicycle Club. The only member of the family who does not compete in the races, is the mother of the children, Jean.

Robert said, "She takes care of us when we are racing. She has her hands full keeping track of who is in what race along with where they are."

Dennis is registered to race in world competition. He is a member of the Amateur Athletic Union and the Amateur Bicycle League of America.

He has to comply with rules and regulations that are standard throughout the world.

Because of his record of wins, he now faces a handicap of starting a delayed race or by competing in an older age group.

His father said, "When Dennis first started racing, the fans used to say, 'Look at that little boy . . . isn't he cute?' Now they say, 'Look, he's here!' "

The committee plans to act as guides to parents of first and second grade children during the remainder of the school year. Sweetwater Springs Zoning Held Up For Master Plan

SAN DIEGO (CNA) — Plans for development of more than 1,000 acres south of Casa de Oro, in the Sweetwater Springs area, were held up temporarily by the county planning commission which would like to have more information.

The Sweetwater Springs Company, Inc., represented by Arnold Dahl and Robert Rundell, was seeking approval of a rezone for 19 acres, a minor portion of the property, but an important one at the northwest corner of the holding.

Only 250 acres was included in the plans for the acreage, but Rundell said there are options on 800 more acres. The property, except for the 19 acres, is unzoned and could be developed without the county's blessing if subdivision laws were followed.

A conflict of words developed between Dahl and Planning Director Dan Cherrier. It could have been a misunderstanding.

Dahl said he had thought that the plans for the single family construction on the northern most land with fourplexes on the land near Austin Road met with county approval.

Cherrie said he did not believe the commission could take any action without a complete development plan for the entire acreage. He said the details, including construction timing, are lacking.

Without that information, he said, the question of where to put roads and other improvements cannot be answered.

The only document concerning the development in total given the county was an investment sales brochure.

The land in question lies on the west of Sweetwater Springs bblvd. on oth sides of Austin road. The primary owner is Fred Hansen.

The planning commission invited the prospective builders to return on Jan. 24 with a master plan for development.

Matadors Move Into First Place Slot In Grossmont League Hoop Standings

By JOHN NICHOLSON
Mt. Miguel Basketball Writer

The two things that it took to give Mt. Miguel High a piece of first place glory in the Grossmont League were a bit of luck and a tough basketball team. They had both last week.

The Matadors were fortunate enough to hear of a hapless Monte Vista High team sporting a 1-10 record knocking off the league favorite and number one ranked Helix High Highlanders last Friday night.

As far as a tough basketball crew goes, the Matadors boast a 2-0 league record, with victories over Monte Vista and El Capitan High last week.

Against Monte Vista, a team that is tired of being pushed around this year, Mt. Miguel had to fight hard to earn the 56-46 win in the Grossmont League curtain raiser last Tuesday.

The hero of the game turned out to be John Woodward, who tossed in 18 tallies to lead Miguel.

On Friday, the Miguelites traveled to El Capitan High to take on the rough Vaqueros. The Matadors toyed with El Cap for three periods before John Woodward tossed in 14 points in the last eight minutes to help Miguel pull away to a 70-52 win.

Woodward had twenty points for the evening.

The game, the 33 league win in a row for Miguel, gave the Matadors a 9-3 overall record and a share in the first place position in the league, tied with El Cajon High. Mt. Miguel was to meet El Cajon Tusday, and, depending on the outcome, will either be in first place all alone or tied for second.

El Cajon's big weapon is tough little Terry Barrett, one of the big scorers and top defensive guards in the league.

On Friday, Miguel will host Santana's Sultans and Kyle Hypes the super scoring junior who is equally pesky on defense. The Matadors will be hoping to stop Hypes with their powerful defense led by 6'9" Kenny Barstow.

Miguel's junior varsity team had a rough time of it in the league action last week, as they were toppled by the Monte Vista jayvee on Tuesday and squeezed by El Cap's jayvee on Friday.

On Friday, it was a scramble all the way for the Miguelers, as the final outcome was in doubt until the buzzer. The score was Miguel 72, El Cap 69.

Late Scores

Helix Slams El Cap

Helix High crushed El Capitan Tuesday night, 83-42 in an easy victory. Top gun for Helix was Bill Walton with 22 points. Walton also picked off 14 rebounds in the basketball game.

Bruce Menser was behind him with 16 points while Mike Dupree contributed 12. The junior varsity also romped over El Cap as they marched on to a 65-32 win.

Helix High Hoopsters Shocked By Monte Vista In League Upset

By TOM WARREN
Helix Basketball Writer

"It could happen to us," said Scot varsity basketballer Dave Unroe before the team's game with Monte Vista. And it did.

Unroe was speaking of the over confidence that had plagued the Mt. Miguel five when they played the Monarchs earlier that week. The Matadors pulled that one out, 56-46, after having been given a good scare. The Highlanders were not so lucky.

Monte Vista, a team which entered the game last Friday with a 1-10 record, finally put everything together that night, and unfortunately for the Highlanders, they couldn't put anything together.

They dropped the game, 58-52, with their lowest point total thus far, in a game having much in common with last Sunday's Super Bowl upset.

In both cases one team entered the game as an odds-on favorite, and in both cases the favorite couldn't get moving while the underdog couldn't do anything wrong.

It was just one of those nights for the Scots. Their poor shooting (with the team sinking only 32 percent from the field) and awkward passing was just what the Monarchs had hoped for, as they took quick advantage of Highlander mistakes to post a 32-24 halftime lead.

After that it was too little too late for the Highlander quintet as Monte Vista played a ball control game to protect their lead.

With 5:45 left in the last period the Scots did manage to tie it up but the Monarchs withstood the challenge to the point where they were seven ahead with only 1:09 remaining on the clock.

OUT-HUSTLED

"They just out-hustled us," said Helix coach Gordon Nash. "They played a ball control game and waited until they had the open shot. Maybe the loss will do us some good," he went on. "I think now the boys will enter the games with a better mental attitude.

"I'm glad it was Monte Vista we lost to rather than someone like Mt. Miguel. I think because of the loss we will be a better team. I don't think we will drop any more league games."

That statement will be put to the test tomorrow night as the hoopmen meet El Cajon on the Braves' court. El Cajon, one of the better teams in the strong Grossmont League this year, is led by 6-2 junior Dean Owens, who is averaging 12.4 points per game.

"They haven't changed too much from the team they were last year," said Nash, "but they are better than Monte Vista, so we can expect a tough game from them."

Leading the Highlanders will be 6-9 center Bill Walton, who tallied 16 points in last Friday's contest, and 6-3 fordward Unroe, who arrived at the same figure.

In JV action last Friday the Highland cagers dropped the Monarchs 56-43.

Monte Vista Upsets Helix High In Grossmont Clash, 58-62

By SCOTT McGAUGH
Monte Vista Sports Writer

The Monte Vista High School basketball squad shattered the Grossmont League last Friday night as they upset league favorite and top-ranked Helix High School 58-52, in a thriller at Monte Vista High.

Bill Belander paced the Monarchs on the victory as the 6'-2" forward poured in 13 points in the first period of play.

Belander was able to get around the tall Bill Walton at center. Walton, a junior weight 185 pounds, while Belander, a junior tips the scales at 160.

The Monarchs held a slim 16-15 margin at the close of the first quarter. Belander had scored all but two of the Monarch's points in the first period of action.

Monte Vista opened the gates as they sailed to a 32-24 lead at halftime. The Monarchs' offense was clicking for the first time in several games.

The Highlanders bounced back in the second half to tie the game at 45-45 with six minutes of play left.

ERNIE ARROYO SCORES

Coach Felix Rogers sent Ernie Arroyo, 5'-10" junior guard into action after sitting on the bench for the first three periods of play.

Arroyo tuned in a quick 13 points to help put the game on ice for the Monarchs. He outscored the entire Helix team by six points in the last six minutes of play.

The victory gave the Monarchs a 1-1 record in league play. Earlier they lost to a tough Mt. Miguel team 56-46 as they went cold in the second half of the game.

The Monarchs had been in the lead throughout the game, but let it slip out of their hands with 5:20 left in the third period of play.

From there, Mt. Miguel pulled out to a seven point lead for the remainder of the game.

Bill Belander was high scorer for the Monarchs in that game as he dumped in 14 points. Dan Heien and Jim Krattli followed with 12 and 10 points.

The Monarchs will play host to the El Capitan Vaqueros tomorrow at the Sping Valley gym in a league clash starting at 8 p.m.

The Vaqueros are coached by Bob Hoss who was with the junior varsity team at Monte Vista last year.

Mt. Miguel Senior Selected Achievement Awards Winner

Carla Hollowell, a senior at Mt. Miguel High School has been named a winner by the National Council of Teachers of English for her excellence in their annual Achievement Awards writing contest.

Carla, the daughter of Mr. and Mrs. John Hollowell, 7855 Lincoln st., L.G., intends to major in music and English.

Nearly 8,500 students were nominated last spring by their English teachers to participate in the NCTE competition. Only 800, representing 600 schools throughout the nation and in American preparatory schools abroad, were named finalists.

The names of these 800 students will be sent to every college and university in the county with strong recommendations that they be considered college scholarships.

In the past, 99% of the awards winners gained admission to the college of their choice and 80% of those applying for scholarships received financial aid.

Winners receive scrolls of recognition and their high school English departments are awarded certificates of merit. Carla was the only 1969 winner in all of San Diego County.

Participants had to take a one-hour grammar and vocabulary test and write an hour-

They also had to submit three prepared original compositions, biographical data, supporting statements from an English teacher and school administrator, and an autobiographical sketch.

"The essay question was exceedingly difficult this year," according to Mrs. Cherie Harley, Carla's Junior English instructor. "This award is a great honor for Carla, as well as for Mt. Miguel, which also had a winner last year."

Trotters Rack Up 1,810-0 Record

Time must be turned back to the 1961-62 basketball season to find when the Harlem Globetrotters, who will put on their annual act Jan. 24 at the Sports Arena, last lost a game.

It's very doubtful if any team in sports history has compiled a winning record comparable to that of the Trotters. Since the 1962-63 campaign, the Trotters have won 1,810 games and lost none. The season before they chalked up 287 triumphs and dropped one contest.

The most games the Trotters ever lost in one season was in 1941-42 when they dropped 18 and won 135.

Last season the fun-loving hoopsters came out on top in all 319 games they played, 174 of the victories coming in the United States and Canada. They were 39-0 in Australia and New Zealand, 85-0 in Europe and 21-0 in Mexico.

The Washington Generals, their traveling companions last season, once again will provide the opposition on the Trotters' visit here.

Tickets for the contest, to be sponsored by the San Diego Chapter of the Sigma Delta Chi, the professional journalistic society, now are on sale at the Sports Arena and arena ticket outlets.

Fans attending the game also will see outstanding pregame and halftime entertainment put on by talented artists discovered by the Trotters in various parts of the world.

High School Students Appear On T.V. Show

A group of Mt. Miguel High School freshmen traveled to the KFMB studios Dec. 16 to take part in the Bob Dale Show.

The thirteen students, members of a new organization on campus called SWIMM, were under the supervision of Mrs. Mary Moreau, one of Mt. Miguel's freshman English teachers.

"Swimming Wanted In Mt. Miguel" was started in the middle of November as a frosh English project. The hopes of the group are to get many interested people to support a swimming pool for Mt. Miguel.

According to Mrs. Moreau, SWIMM will be turned over to the entire freshman class at the end of the current semester. This is because the movement has grown and is to big for a small group.

On the show, some of the students were invited to go on the air and talk about SWIMM. Gary Cannon was spokesman for the group, because of his work with the idea, according to Mrs. Moreau.

Others included Janis Hurt, and Sandi McPherson, and their teacher.

Biology Students Go On Whale Hunt

A whale hunt was held for some 130 Monte Vista biology students yesterday by Owen Miller, a biology teacher in order "to show students that biology exists outside the classroom."

The goal was to have the students take a close look at the California Gray whales while on their annual migration South.

Miller said that the whales migrate South from December to February and when returning North, they swim farther out to sea, unable to be watched by sightseers.

The trip took about 2½ hours and the students went about a mile out in two boats supplied by the H &M Sportfishing Company.

Many of the participating students have been doing research work on the gray whale and have been presenting several oral reports.

The trip took about two weeks to plan and if successful, then others may take place.

Future plans include a four-day excursion into the Grand Canyon by Miller and several biology and ex-biology students.

Currently, about 10 students have been accepted to go on the excursion with several more expressing interest in going.

The Grand Canyon trip will take place over Easter Vacation.

'Second Look' At Signals Asked by School Trustees

The Lemon Grove Elemer tary District school board decided Monday night that flashing amber lights on Massachusetts. They had requested traffic control signals at the San Miguel intersection, and a group of parents had requested them for the Madera-Primera intersection.

San Altos school principal Harold Ball told the board that hand controlled amber lights would partially reduce the effectiveness of the patrol boys' stop signs since amber lights suggest to motorists that they may proceed but must proceed with caution.

The board decided to request county traffic engineers to restudy the situation with an eye toward installing flashing red lights hand operated. Each set of lights would cost the district half of the $3,000 installation cost at each intersection.

The board waxed whimsical as it approved a two-day absence for Superintendent Byron Netzley. He and Mrs. Netzley, friends of President-Elect Nixon, have been invited to attend the inauguration Monday.

There was considerable banter regarding the football prwess of both Mr. Nixon and Netzley. They attended Whittier College at the same time.

Another discussion left the board in a head-shaking attitude. This concerned the County's Regional Data Processing Center to which the District has been paying 5c per youngster as a "developmental" charge.

The District was urged by the Center to have its record-keeping transferred to the Center's computer system. The cost would be $2.25 per student except for junior high. Their cost would be $5.25 each.

Business Manager Paul Reynolds noted that such "money saving operation" would cost the District $5,000 in service and another $5,000 for clerical help to get the material computerized. The Board decided to wait a year and take another look. Meanwhile, the 5c a head "developmental" charge continues.

The board voted to instruct county counsel to enter a suit against the State of California for 125,000.

For the past five years the federal government has been paying the Lemon Grove district, and other districts, for the financial impact made on the district by federal employees.

Veteran Radio, Television Personality To Visit Grossmont JC Saturday Night

Grossmont College will present Henry Morgan, veteran radio and television personality in "An Evening With Henry Morgan" at 8 p.m., Saturday, Jan. 18, in the Student Center.

One of the original "I've Got a Secret" panelists, and sophisticate-at-large, Henry Morgan was born in New York City in 1915. At the age of 17 he became a page boy at a radio station in New York.

A few months later he was promoted to the position of announcer — "the youngest and lowest paid in the business at that time." (1932).

Fired from this job when he included the name of the station manager on a list of missing persons, he was later employed as chief announcer and program director of a Duluth, Minnesota radio station. Then followed two years at a radio station in Boston.

Each move was a calculated attempt to work his way back to New York. He finally made it in 1937 when he started a 15-minute radio program called, "Here's Morgan."

Morgan, whose program was sponsored by several advertisers was recognized as the originator of "negative advertising."

Some advertisers did not respond too kindly to having their claims for their products minimized or ridiculed and a few canceled their contracts.

In 1946, after a three year stint in the U.S. Army Air Force, he graduated to a half-hour radio show. In 1953 he joined a comparitively new television panel show entitled "I've Got a Secret."

Henry Morgan and his wit run the gamut of opinions: he has been called, "savage", sophomoric", "a smart aleck", "brash", "neurotic", "insulting', "witty", "fabulous", "magnificent", and a "satirist for the ages."

Henry Morgan has appeared on almost every major TV show and has served on several occasions as guest host on Johnny Carson's "Tonight" show.

The public is invited to spend "An Evening With Henry Morgan." The price of admission is $2 with tickets available at the door.
